

BlackLight

One Call

We'll shut off the house light and turn on the black light

The lights go out
Everybody in this place is goin crazy
Music knocks you out
There's tension in the air
The kind that makes you feel so good inside
There's nothing in your minds and you're just bein driven by the sound
You're taken by the sound x 2
This sounds gonna take you places that you've never been before
The way that you're movin' it, makin' me beg for more
Just follow me- close your eyes baby trust me you'll be alright
We'll shut off the house light and turn on the black light
[Give it to me]

Baby, don't you know that it's about to get crazy
And we'll be dancing on the floor and just maybe
The night'll get a little louder, louder x2
The night will get a little louder
Tonights the night we'll let it go
Get up out your seat and lose control [oh oh oh]
Free your mind go nuts freak out
Let the beat, the bass rock you out [oh oh oh]
Dancing under the black light, light x 5
Take it off under the black light, light x 5
Kissin' under the black light, light x 5
Sexin' under the black light, light x 5 [oh oh oh!]
This sounds gonna take you places that you've never been before
The way that you're movin' it, makin' me beg for more
Just follow me- close your eyes baby trust me you'll be alright
We'll shut off the house light and turn on the black light
[Give it to me]

Baby, don't you know that it's about to get crazy
And we'll be dancing on the floor and just maybe
The night'll get a little louder, louder x2
The night will get a little louder
Tonights the night we'll let it go
Get up out your seat and lose control [oh oh oh]
Free your mind go nuts freak out
Let the beat, the bass rock you out [oh oh oh]

Dancing under the black light, light x 5
Take it off under the black light, light x 5
Kissin' under the black light, light x 5
Sexin' under the black light, light x 5 [oh oh oh!]
[Them future sonics blast in your ear drum] x 4
Tonights the night we'll let it go
Get up out your seat and lose control [oh oh oh]
Free your mind go nuts freak out
Let the beat, the bass rock you out [oh oh oh]
Dancing under the black light, light x 5
Take it off under the black light, light x 5
Kissin' under the black light, light x 5
Sexin' under the black light, light x 5 [oh oh oh!]
[Black black black black black light light light light light light] x2
