Where the Wild Things Are

Patrick Watson

Life sings a heavy song
I put my wolf suit on
And I'll howl all the night
(...?)To where the wild things are
I go where the wild things areI take a boat to (...?)
And there's monsters that are chasing me all day long
But I ain't afraid where the wild things are
I go where the wild things areWhere the wild things are
I go where the wild things are
