See You At the Bottom

Seether

Well in the fall all the leaves begin to sour
As helpless slave's, to a mother who's a whore
So you reveal all your naked non-compliance
A faceless name undeserving of a soulHey, can you hear me now?
I know I'm nothing but found
Say, can you help me out?
But my intention's were good
Hey, can you help me down?
What's lost is better unfound
Say, can you wait me out?
Cause I will see you at the bottom
See you at the bottomIf you stay I will feed you to the fire
And with a smile, I will rake you on the coal's
I cant believe I was bested by a liar
Cause I believe I was meant for so much moreHey, can you hear me now?
I know I'm nothing but found
Say, can you help me out?
But my intention's were good
Hey, can you help me down?
What's lost is better unfound
Say, can you wait me out?
Cause I will see you at the bottom(So)Searching for god, god, god, godHey, can you hear me now?
I know I'm nothing but found
Say, can you help me out?
But my intention's were good
Hey, can you help me down?
What's lost is better unfound
Say, can you wait me out?
Cause I will see you at the bottom
See you at the bottomI'll see you at the bottom
Hey, can you hear me now
(I'll see you at the bottom)
Hey, can you help me out
