

# One Foot In

## Sugababes

No need to call me friend  
I understand what you meant back then  
All your times into suspend  
Between half-past seven and quarter-past ten All you need in me to surpass  
Negative energies that had you upset  
My loving kept your heart in line  
Standing on the borderline I've got time and you can have it all  
As long as I'm not home too late  
We can even catch a movie it starts around 8  
But you're playing games, don't think I'll come when you call  
'Cos I'll be occupied with something else One foot in, one foot out  
It ain't what I'm all about  
Your love has got me spinning around  
You take the love outta me  
Keeping your distance, baby  
No more I will resist, baby Not just a fling you see  
I'm not your fashion accessory  
It's time you started to think of me  
Of more than just your girl, baby Have I offended you?  
'Cos your friends can hear me talking to you  
Maybe, I've got some things to do  
Call you up when I get through I've got time and you can have it all  
As long as I'm not home too late  
We can even catch a movie it starts around 8  
But you're playing games don't think I'll come when you call  
'Cos I'll be occupied with something else One foot in, one foot out  
It ain't what I'm all about  
Your love has got me spinning around  
You take the love outta me  
Keeping your distance, baby  
No more I will resist, baby One foot in, one foot out  
It ain't what I'm all about  
Your love has got me spinning around  
You take the love outta me  
Keeping your distance, baby  
No more I will resist, baby One foot in, one foot out  
It ain't what I'm all about  
Your love has got me spinning around  
You take the love outta me

Keeping your distance, baby  
No more I will resist, baby One foot in, one foot out  
It ain't what I'm all about  
Your love has got me spinning around  
You take the love outta me  
Keeping your distance, baby  
No more I will resist, baby One foot in, one foot out  
It ain't what I'm all about  
Your love has got me spinning around
