

# Just Like a Rose

## Lianna Rose

She's just like a rose,  
Her beauty's divine  
But she'll wither away  
And you'll be left asking why

She's just like a rose  
She'll cut you till you bleed  
She'll break your heart  
And leave a tear in your sleeve  
Just like a rose  
She's just like a rose

You can smell her perfume  
All innocent and sweet  
But don't dare hold her for she'll only weep  
a beautiful flower who dances in the summer sun

Oh temptation wets your lips  
But be careful darling  
There's poison in that kiss

Whooo  
Whooo

She's just like a rose  
She'll cut you till you bleed  
She'll break your heart  
And leave a tear in your sleeve  
She's just like a rose  
She's just like a rose  
She's just like a rose  
She's just like a rose
