

In Your Memory (Slick Mix)

Depeche Mode

Put up the barriers, shut down your senses
Cover up with all of your pretenses
See no evil, your eyes are blunted
We are the hunters, we are the hunted Place it in your memory
Leave it in your past
But don't forget Takin' a tumble, I'm takin' a dive
Sometimes I stumble when my mind's made up
Reaction levels seem strangely muted
Ordinary acts of fun have been diluted Place it in your memory
Leave it in your past
But don't forget
