

# That Ain't Nothin'

Fred Hammond

Ain't think too hard, ain't think too hard  
Ain't think too hard, ain't think too hard  
Three boys risked their lives  
In flames of fire they were sure to die  
The king said bow, they said we're not gonna do it  
Although they went it, the Lord He brought it  
He knows the path you take and even if it leads you to a rocky  
place  
It's okay  
Whatever you can think to ask, He can do much more  
And you just say while you wait, wait, wait  
Is there anything, anything  
Anything too hard for Him  
If it's impossible, do you need a miracle  
Anything too hard for Him  
Say you got a mountain  
Seems like it won't move  
No time to climb it it  
You don't know what to do, hey  
What about when  
He brought a big giant down  
With a stone in the hands of a little child  
He knows the path you take and even if it leads you to a rocky place  
It's okay  
Whatever you can think to ask, He can do much more  
And you just say while you wait, wait, wait  
He knows the path you take and even if it leads you to a rocky place  
It's okay  
Whatever you can think to ask, He can do much more  
And you just say while you wait, wait, wait  
Is there anything, anything  
Anything too hard for Him  
If it's impossible, do you need a miracle  
Anything too hard for Him  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin' too hard  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin' too hard  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin' too hard  
He knows the path you take and even if it leads you to a rocky place  
It's okay  
Whatever you can think to ask, He can do much more  
And you just say while you wait, wait, wait  
That ain't nothin', that ain't nothin'

That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin' too hardThat ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin' too hardThat ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'He knows the path you take and even if it leads you to a rocky place  
It's okay  
Whatever you can think to ask, He can do much more  
And you just say while you waitHe knows the path you take and even if it leads you to a rocky place  
It's okay  
Whatever you can think to ask, He can do much more  
And you just say while you wait, wait, waitThat ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
Come on bring it on, come on bring it on  
That ain't nothin', that ain't nothin'That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin'  
That ain't nothin', that ain't nothin' too hard  
That ain't nothin'
