

House On Fire

Beatsteaks

I got no reason to fight
And I don't care what's wrong and who's
Right
There's nothing that we didn't try
Pretending to know what we don't
Understand yet

I got my back to the wall
And no one's gonna answer my call
Like a hit from out of the blue
I woke up this morning, it came without
Warning
My house is on fire

I've been hanging from a tree
I've been down to the sea
As I walked every street
I found no one to cheat
As I stay up all night
As I lay by your side
I've been chasing around
I got up, I came down, so come on

I make my way all around
And if everybody's wearing you down
It's been that way for too long
I woke up this morning, it came without
Warning

We got no reason to fight
So will anybody join us tonight
Will you stop and give it a try
My house is on fire but I am alive

It didn't work out shake it off now
Never quit
The city won't stop for a soul getting
Over it
Over it
