All Over Me

Graham Coxon

Hey, went in the shower and I fainted on the floor
I was free swimming in light, you were so scared
You washed my head in bright red water
You really though, I was deadI know why you make me so scared
You're all I can see
You speak and my hearing's impaired
You're all over meLaid in your bed
You held my head for a while
Said goodnight and flew awayI know why you make me so scared
You're all I can see
You speak and my hearing's impaired
You're all over me
