Chances Are

The Neighbourhood

I was lost inside a daydream
Swimming through the saline
I looked at you and you breathed in
Well, that's the way it's always beenIt all comes down to creating time
You don't always have to make it rhyme
We'll all drive by in our hybrid lives
Chances are, we'll make it backI was doing time in the L.A. jail
My karma was living inside a failure
No matter how it don't matter now
Rest assured, the rest is blurredIt all comes down to doing time
You don't always have to make it a crime
We'll all drive off in our hybrid lives
Chances are, we'll make it back
We'll make it back, we'll make it backTerrance McKenna said
"It is better to explore within"
We were apes before we spoke of sin
The cosmos sits on the tip of a pinIt all comes down to creating time
You don't always have to make it alright
We'll all drive by with our hybrid lives
Chances are, chances are, chances are
We'll make it back, we'll make it back
We'll make it back, we'll make it back
