

The Man in Love With You

[George Strait](#)

I'm not the hero who will always save the day
Don't always wear the white hat, don't always know the way
I may not even be the dream you wanted to come true
But I'll always be the man in love with you I'm not the key that opens every door
I don't have the power to give you all you want and more
But when you're needing something special you can hold onto
I'll always be the man in love with you I could never work miracles
That maybe others who can do what I can't do
But no one else could be as good as me in loving you So when the world won't turn the way you wish it would
And the dreams you have don't come alive as often as they should
Remember that there's someone there who's heart is always true
I'll always be the man in love with you
