

# Getting Through

## Keijo

I'm too honest when I'm scared  
When I first looked in I was young and cared  
These are ways of getting through  
I left my trust on the tail of youth  
We were so unsure of the things we'd seen  
These are ways of getting through  
These are things I'd do for you  
And ask me and ask me, I'll be there too  
I never learned to ask what's fair  
It's just the words we use take us there  
These are ways of getting through  
These are things I'd do for you  
And ask me and ask me, I'll be there too

I never touch fortune, I never regret  
It's just a simple task to touch your depths  
These are ways of getting through  
These are things I'd do for you  
These are ways of getting through  
These are things I'd do for you  
And ask me and ask me, I'll be there too  
I never touch fortune, I never regret  
It's just a simple task to touch your depths  
And I'm always too honest when I'm scared  
When I first looked in I was young and cared  
These are ways of getting through  
These are things I'd do for you  
And ask me and ask me, I'll be there too
