

# Left Too Late

## Florrie

And the boys, boys with their toys, toys  
Say goodbye, not for the last time  
The boys, boys with their toys, toys  
Say goodbye, you're walking the line Buy a one way ticket far away from here  
Don't think I'll let you, I'll never forget  
Buy a one way ticket, get me out of here  
I popped your bubble 'cause, baby, now I've Left too late  
All the things that I wanted to say  
To you fade away  
And you get what you give But you're taking too much and I  
I'm not asking for much  
But enough has happened before  
Wonder why at night when I lie awake, you're there on the floor And the boys, boys with their toys, toys  
Know the score, I'm not gonna wait for  
The boys, boys with their toys, toys  
Wanting more, they're losing the war Buy a one way ticket far away from here  
Don't think I'll let you, I'll never forget  
Buy a one way ticket get me out of here  
I popped your bubble 'cause baby, now I've Left too late  
All the things that I wanted  
To say to you fade away  
And you get what you give But you're taking too much  
And I, I'm not asking for much  
But enough has happened before  
Wonder why, at night when I lie awake you're there on the floor My heart, I've left it open  
Just one too many times  
My heart can never be broken  
You made a promise  
That you'll always be mine My heart, I've left it open  
Just one too many times  
My heart can never be broken  
You made a promise  
That you'll always be mine Left too late  
All the things that I wanted to say  
To you fade away  
And you get what you give But you're taking too much  
And I, I'm not asking for much  
But enough has happened before  
Wonder why, at night when I lie awake, you're there on the floor Boys, boys with their toys, toys

Boys, boys with their toys, toys  
Boys, boys with their toys, toys
