

Angels

Jason Mighty

Jesus can you be my friend?
Lord please, just touch me again
It seems like there's no hope in my sight
There's no peace left in my mind.

My heart is slowly breaking inside
The sorrow on my face just can't hide
Because I fast and I pray
But still there's no answer
And in the nights and through the day
Don't leave me Abba Father!

Chorus

Jesus can't You hear I'm calling
Can't You see the tears
From my eyes just keep falling
Jesus how long shall this last?
Give me peace until the storm has passed
Give me peace until the storm has passed

Help me not to lean on my understanding
You brought me through the valley and the midnight and I'm still standing
I walk by faith and not by sight
I'm depending on Your power Lord
Not my might

Cause I'm not perfect
So I need Your strength
When the pressures of life bring more discouragement
It's no more my will
But thy will be done
Take control of me
Cause I'm Your son

Repeat Chorus 2x

When I'm going through the midnight
And I have no one to talk to
The tears on my pillow

That no one can see
Lord You give me hope for tomorrow
You'll never give me more than I can bear
Jesus You love me!
Jesus You still care

You died on calvary
For someone like me
You're my King
And I appreciate thee
You give me peace, peace in the storm
