

Give Me Sexy

Haffi Haff

Give me sexy, drive me crazy
(I want to be with you)
Give me sexy, body loving
(We got things to do)
And get ready to reloadMy body's burning up
I don't know why but I really think it's you
On this lonely night
I'll take you on a dirty rideI lose control, hit the floor
I'm feeling kinda nasty don't you wanna know?
Push me down on the ground
Let's see how far we goGive me sexy, drive me crazy
Set the fever high on my dance floor
Give me sexy, body loving
Activate the flow
And get ready to reloadGive me sexyMy body's getting hot
You really don't know how to fight it
But I'll try to think of you tonight
When you give yourself to Mr. RightI lose control, hit the floor
I'm feeling kinda nasty don't you wanna know?
Push me down on the ground
Let's see how far we goGive me sexy, drive me crazy
Set the fever high on my dance floor
Give me sexy, body loving
Activate the flow
And get ready to reloadGive me sexy x2I want to be with you
We got things to do
(Give me sexy)
Cause I wanna be with you
Let's see how far we'll goGive me sexy, drive me crazy
Set the fever high on my dance floor
Give me sexy, body loving
Activate the flow
And get ready to reload(I want to be with you)
Give me sexy
(We got things to do)
And get ready to reload
