

# Lost Wisdom

## Burzum

(June -91)

While we may believe  
our world - our reality  
to be that is - is but one  
manifestation of the essence  
Other planes lie beyond the reach  
of normal sense and common roads  
But they are no less real  
than what we see or touch or feel  
Denied by the blind church  
'cause these are not the words of God  
- the same God that burnt the  
knowing
