

I Like It (Remix)

Sammie

Girl I wish that I could spend time with you each and every day
Playing all my love and emotions that's the thing that's got me open and I
Don't know

What it takes to let you know your my girl to let you know you're my baby
And even when then they say we won't stay around
If they only knew that we were meant to be together
Forever and ever whatever (there's no better thing)
Me and you girl that's why I write you love letters saying I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it girl don't you know I like it
I like the way you look at me
I like the time we spend baby
I like what we have grown to be

I like it girl don't you know I like it Sometimes I want to be the one you be checking for can I get a second for
me

Me and you to be alone tell me if you think it's wrong
Love is nothing but the time it takes you to say "I'm on your mind"
Let me tell you I'm always there oh yeah
Let's get a little time away go to the movies on a Saturday
Meet me at the finish line so I can tell you one more time
Girl you know I'm not scared to let you say that I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it girl don't you know I like it
I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it girl don't you know I like it When I think of you
I think of all the things we could do
And I never want to let
You go and as long as I can let you know
I hope we stay down forever I like
Baby baby
Baby baby
Baby baby
Baby baby
Like it dontcha ya know I like it I like the way you look at me
I like the time we spend baby

I like what we have grown to be
I like it girl don't you know I like it
I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it girl don't you know I like it I like
Baby baby
