

Swizzle Stick

T Bone Burnett

Swizzle stick
I can take you with a swizzle stick
Swizzle stick
And vanish you like a magic trickIn the neck is low tech
Through the heart is high artSwizzle stick
I can stir you like a Bloody Mary
Swizzle stick
And turn your cool incendiaryIn the back is Black Jack
Through the eye is Sci-FiSwizzle stickThe true source of light in a mirrored room
Doom baby doom baby doom
Whatever fools the eye is true
I can jerk the world from under youBleed
DistortSwizzle stick
I can infiltrate your prideSwizzle stick
And lace your faith with cyanideThrough the brain feel no pain
In the throat no antidoteSwizzle stick
Swizzle stickMake me your king
I will make your soul ring.
