

I Found My Way Back Again

Nevertheless

Keep the front door locked
Lights out so no one can see me
Or where I've been

I've got them all convinced
I'm fine with no one around me
No one gets in

(Chorus)
This hollow shell
This little hell
You took me out of the dark
But I've found my way back again

I'm not doing well
I'm not doing well

So take me out of the dark
Back to the place where I've found
And back with you

Everybody else feels fine
Their lives are so perfect
They have no shame

But I'm an open book
Filled with stories about me
That don't mean a thing

(Chorus)
And this hollow shell
This little hell
You took me out of the dark
But I've found my way back again

I'm not doing well
I'm not doing well

So take me out of the dark
Back to the place where I've found

And back with you

Just let 'em in
Let 'em in tonight (x6)
