

# Big Distraction

## No Doubt

You're my concentration  
Everything else is a bore  
I've got myself snagged on you  
No self control  
Now all that I wanna do  
Sleep in the shadow of you  
For the rest of my life  
Now we can chisel  
Chisel off built up walls  
Of pain deposited  
From past lovers  
Memories they can sleep  
And we can live comfortably  
For the rest of our lives  
Wrong or right  
Shipwrecked into you, situation is foolish  
Put up a fight  
You're my big distraction, obvious companion  
I'm falling fast like an avalanche  
Indentured servant  
A slave to a slave  
Thank God for my hopeful heart  
And for mutual feelings  
For look how it's balanced now

Maybe we'll just settle down  
For the rest of our lives  
Wrong or right  
Shipwrecked into you, situation is foolish  
Put up a fight  
You're my big distraction, obvious companion  
I'm falling fast like an avalanche  
Look how it's balanced now  
Maybe we'll just settle down  
For the rest of our lives, lives  
Wrong or right  
Shipwrecked into you, situation is foolish  
Put up a fight  
You're my big distraction, obvious companion

I'm falling fast like an avalanche  
You're my big distraction, obvious companion  
I'm falling fast like an avalanche  
You're my big distraction, obvious companion  
I'm falling fast like an avalanche  
You're my big distraction, obvious companion  
I'm falling fast like an avalanche  
You're my big distraction, obvious companion  
I'm falling fast like an avalanche
