

Fuck You

Whiskey Shivers

This was never what I expected
Itâ€™s not the way I wanted it to end
Got to hear the news from one of my best friends that youâ€™re gone
So thank you for all the heartache
And it could tax all the sleepless nights
Perhaps you thought I hated being treated right all along

Fuck you and the horse you rode in on
Fuck you for leading me on
Fuck you for the way you mistreated me
You always ask me for a song

Oh we go together like fire and ice
Like a spark to the gasoline
In a field full of dry sticks and leaves
And a bon
And I only exist when I feel far away
Then your fist broke and glass was a camera
You turn and smile for the camera
Then youâ€™re gone

Fuck you and the horse you rode in on
Fuck you for leading me on
Fuck you for the way you mistreated me
You always ask me for a song
You always ask me for a song

And if itâ€™s really over
Bring me back my old guitar
That you never ever learned to play
Please tell your sister
Iâ€™m gonna miss her
(Woah-oh oh oh) (woah-oh oh oh)

Fuck you (woah-oh oh oh)
Fuck you (woah-oh oh oh)
Fuck you (woah-oh oh oh)
Fuck you (woah-oh oh oh)
You always asked me for a song
