There Is

Allison Crowe

Open up your door
I know we've both been here before
But there's a shadow fading here
A revolution on its wayOpen up your mind
I know I've drowned in there before
But my wings are drying off
And I am ready to dive in
I am coming back again
To youA way
There is a way
Out of this
There isGive me a minute
I'll try to explain myself to you
I am the girl who is always with you
The one who's always watchingGive me a break I thought that you understood this already
And I'm not trying to deceive you
I don't have that much time on my hands
And I am not going to leave you aloneA way
There is a way
Out of this
There isI see you in the rain
and you are more beautiful
than I have ever seenAnd when I walk I want you with me
And I see your smile above me
and I know, I know there isA way
there is a way
out of this
there is.
