Schizophreniac

Earthsuit

Enslaved to silence I, see the free
But in schiz I surely stay
It is much easier to change your tune
When you song ain't being playedYouth camp junkies don't get enough to make the buzz last
Where y'all at, where y'all at
Youth camp junkies don't get enough to make the buzz last
Heads up seven up to the schizophreniacSchizophreniac, schizophreniac
I see the stone faced to the one way track
Schizophreniac, schizophreniac
Heads up seven up to the schizophreniacEasy I flake out as
I speak the words that my soul don't wanna say
Changing my colors as
Focus brings out my subtle shades of grayYouth camp junkies don't get enough to make the buzz last
Where y'all at, where y'all at
Youth camp junkies don't get enough to make the buzz last
Heads up seven up to the schizophreniacSchizophreniac, schizophreniac
I see the stone faced to the one way track
Schizophreniac, schizophreniac
Heads up seven up to the schizophreniacWell it's the brain child from the hostile
People of the rock got 66 rounds of schizophrenic sounds
Yet I stress in the realm of the mental
No rental 'cause for applause like yentalGentle on the wire 'cause I rock the gondola
A string habitat spare me no room for the fat
Pat the ground with the head that much prefer the clouds
The mind of the Pharisee is subject to the gravityWe must avoid the gravity
We must avoid the gravity
We must avoid the gravityIt is much easier to change your tune
When you song ain't being playedYouth camp junkies don't get enough to make the buzz last
Where y'all at, where y'all at
Youth camp junkies don't get enough to make the buzz last
Heads up seven up to the schizophreniacSchizophreniac, schizophreniac
I see the stone faced to the one way track
(Don't show your heads 'round here)
Schizophreniac, schizophreniac
('Cause you're bound to lose 'em)
Heads up seven up to the schizophreniac
(The strain will make ya choose 'em)(Don't show your heads 'round here)
Schizophreniac, schizophreniac
('Cause you're bound to lose 'em)

I see the stone faced to the one way track
(The strain will make ya choose 'em)
Schizophreniac, schizophreniac
Heads up seven up to the schizophreniac
