

Thatcherites

Billy Bragg

You Thatcherites by name, lend an ear, lend an ear
You Thatcherites by name, lend an ear
You Thatcherites by name, your faults, I will proclaim
Your doctrines, I must blame, you will hear, you will hear
Your doctrines, I must blame, you will hear You privatize away what is ours, what is ours
You privatize away what is ours
You privatize away and then you make us pay
Yeah, we'll take it back some day, mark my words, mark my words
We'll take it back some day, mark my words You Thatcherites by name, lend an ear, lend an ear
You Thatcherites by name, lend an ear
You Thatcherites by name, your faults, I will proclaim
Your doctrines, I must blame, you will hear, you will hear
Your doctrines, I must blame, you will hear The scabs they hide their faces in shame, yes, in shame
The scabs they hide their faces in shame
They hide away in shame but we recall their names
And they know they'll share the blame for it all, for it all
I know they'll share the blame for it all You Thatcherites by name, lend an ear, lend an ear
You Thatcherites by name, lend an ear
You Thatcherites by name, your faults, I will proclaim
Your doctrines, I must blame, you will hear, you will hear
Your doctrines, I must blame, you will hear Your leader she has gone to the Lords, to the Lords
Your leader, she has gone to the Lords
Your Leader she has gone but she's left us Little John
And he's barely hanging on by his nails, by his nails
He's barely hanging on by his nails You Thatcherites by name, lend an ear, lend an ear
You Thatcherites by name, lend an ear
You Thatcherites by name, your faults, I will proclaim
Your doctrines, I must blame, you will hear, you will hear
Your doctrines, I must blame, you will hear
