

# Gay in the South

## SUSTO

Lover of mine I heard you caught it  
It's a real hard time just being alive  
Mother of mine you think that you cause it  
It's an uphill climb being gay in the southThey promised us you were  
going straight to hell when you die  
I dont even think it's a real place  
And in future time there  
will be nothing different between you and I  
And I can't wait for that time to come true  
Sister of mine I've seen you struggle  
The men in your life letting you down  
So hop in your car and find a more loving place to be. Sometimes it just takes a change  
in localThey promised us you were going straight  
to hell when you die. I know now that hell is nothing but a head space. So follow through  
tell the truth unless you think you should lie  
You can hold on just as long as you want toLook up you see that  
The sun is reaching through the blinds  
Sinner step back dont let a test result ruin your life  
Brother of mine I've seen you struggle  
It's a real hard time being alive(brother of mine)  
(brother of mine)
