

# Neverland (Racket Club Rehearsal)

## Marillion

When the darkness takes me over  
Face down, emptier than zero  
Invisible you come to me  
..quietly  
Stay beside me  
Whisper to me "Here I am"  
And the loneliness fadesSome people think I'm somethin'  
Well you gave me that, I know  
But I always feel like nothing  
When I'm in the dark aloneYou provide the soul, the spark that drives me on  
Makes me something more than flesh and boneAt times like these  
Any fool can see  
Any fool can see  
Your love inside meAll these years  
Truth In front of my eyes  
While I denied  
What my heart knows was rightAt times like these  
Any fool can see  
Any fool can see  
Your love inside meI want to be someone  
I want to be someone  
I want to be someone  
Who someone would want to be  
Someone would want to beWendy  
Darling  
In the kitchen  
With your dreamsWill you fly  
again  
Take to the sky  
againUndo the hooks  
Once and for all  
Banish the tic tic tic tok tok tok  
AgainWill you be  
Yourself for me  
Cause I can take it  
I can stand  
AnythingWhen you're with me  
I can stand it  
I can standBut when you're gone

I never land  
In Neverland Want to be someone someone would want to be  
someone someone would want to be  
someone someone would want to be  
someone someone someone someone Any fool  
Any fool can see  
Any fool can see  
Your love  
Inside me
