

# Stay

**Alison Krauss**

Where have you been  
My long lost friend?  
It's good to see you again  
Come and sit for a while  
I've missed your smile  
Today the past is goodbye Time can't erase  
A lover's embrace  
Can't you hear it calling?  
A new day dawning  
You were longing to find Love's taken you far  
Away from my arms  
And I've been here all alone  
Have your eyes failed to find  
What took you from mine  
A vision that's faded through time? But you sailed away  
A fine summer's day  
'Cause you heard it calling  
A new day dawning  
You were longing to find There is a way to make you stay  
Darlin', don't turn away  
Don't doubt your heart  
And keep us apart  
I'm right where you are  
Stay There is a way to make you stay  
Darlin', don't turn away  
Don't doubt your heart  
And keep us apart  
I'm right where you are  
Stay
