Just For You

Sticky Fingers

Morning brings me mental
What's the story?
Run my head through
Draw up a mind map
Set for central
Followed a blind man
'Cause we felt the need to move
Right now

For the glory
On and onwards
Hear the roaring
Growing stronger
We're on a shine, man
And we're dreadful
Turned on a wise land
'Cause we felt the need to move
Right Now

And we'll never bring each other to the ground

Sun is always shining
It's there and yeah, we'll come
Just for you
Maybe this world will find me
It's there and yeah, we'll come
Just for you

Yes, outshine me
We'll be crucial
We're not blinded
Speaking truthful
Forever grinding
For our people
Watch it wisely
Plan to be equals

Somewhere we belong
Until then carry on
Somewhere we belong

Until then carry on

Sun is always shining
It's there and yeah, we'll come
Just for you
Maybe this world will find me
It's there and yeah, we'll come
Just for you
