Singled Out

A*Teens

When I wake up in the mornin'
Before I style my hair
The first thing on my mind
Is I hope he caresAnd every single evenin'
Before I hit my bed
My mind analyzes
Every word she saysIt seems like everybody's got someone
A hand to hold and a soul to touch
I want it all so muchI can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could
Love you 'til the end of timeI can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled outIf I only had the courage
To open up my heart
Would he run, would he hide?
Would he light a spark?Should I walk up to her?
Should I throw a charmin' smile?
Should I say that her eyes
Light up my skies?Seems like everybody's got someone
A hand to hold an' a heart to touch
I want it all so muchI can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could
Love you 'til the end of timeI can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled outEvery single day
I see these couples walkin' by
And if I took a chance
Maybe I could be one of themIf only I could have you as the one
The hand that I could hold, the soul to touch
The heart that I controlI can't get you, I can't get you
I can't get you off my mindI can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could

Love you 'til the end of timeI can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled outI can't get you, I can't get you
I can't get you off my mind
When I'm with you, I know I could
Love you 'til the end of timeI can get you, I can get you
If you could just tell me how
'Coz with all this love around
An' me without you
I'm feelin' singled outI'm feelin' singled out
