

When Life Gets Boring...

Gob

She creeps into my head
So many mornings
What am I supposed to do
When life gets boring?
This fixation with her
It goes much deeper
Than just a photograph
Wish I could keep her
Can't get her off my mind
Happens all the time
I'm turnin' everything down
Well, well, I should've known better
Well, well, I should've known better
I watch her shop for clothes
To value vintage
Stare from across the room
She makes her purchase
The wheel inside my head
Has started rolling
It's going to take me away
It's going to take me away
Can't get her off my mind
Happens all the time
I'm turnin' everything down

Well, well, I should've known better
Well, well, I should've known better
Can't get her off my mind
Happens all the time
I'm turnin' everything down
Get her off my mind
Happens all the time
I'm turnin' everything down, keep down
I'll keep my distance
I'm better off putting this behind me
I'm overdrawn, I withdrew
I'm down and out, and thanks to you
I'll keep my distance
I'm better off putting this behind me

I'm overdrawn, I withdrew
I'm down and out, and thanks to you
Well, well, I should've known better
Well, well, I should've known better
Well, well, I should've known better
Well, well, I should've known
Well, well, I should've known better
Well, well, I should've known better
Well, well, I should've known better
Well, well, I should've known
