Advisory - the following lyrics contain explicit language:

A dark room is my world
Life no longer turns me on
Forget my friends
That already forgot meLove me, dig me
'Cause I hate myselfThe needle in, the brain out
Don't know what I'm doing
The needle is a bullet in my headFuck, love me, dig me
'Cause I hate myselfFucked up looks good, feels good
Happy with yourself
Now you got no attentionDon't take part, demanding more
You're predictable and fucking boring
Two faces one for me
And one for you, happy?Same mistakes over and over
Getting away with it
I can't get over that
Getting away with itA dark room is my world
Life no longer turns me on
Forget my friends
That already forgot meFuck, love me, dig me
'Cause I hate myself
'Cause I hate myself
'Cause I hate myself
'Cause I hate myself
'Cause I hate myself
