

# Sick Life

## Nailbomb

Advisory - the following lyrics contain explicit language:

A dark room is my world  
Life no longer turns me on  
Forget my friends  
That already forgot meLove me, dig me  
'Cause I hate myselfThe needle in, the brain out  
Don't know what I'm doing  
The needle is a bullet in my headFuck, love me, dig me  
'Cause I hate myself Fucked up looks good, feels good  
Happy with yourself  
Now you got no attentionDon't take part, demanding more  
You're predictable and fucking boring  
Two faces one for me  
And one for you, happy?Same mistakes over and over  
Getting away with it  
I can't get over that  
Getting away with itA dark room is my world  
Life no longer turns me on  
Forget my friends  
That already forgot meFuck, love me, dig me  
'Cause I hate myself  
'Cause I hate myself  
'Cause I hate myself  
'Cause I hate myself  
'Cause I hate myself
