Seventeen Year Locust

Rob Zombie

Electric black night crash
Hunger on your face
Opium heat rash
Suffocate this place
Well I see the sun
Burnin' in your eye
I see the sun
Call a suicide, come on
17 year locust
If not now when?
17 year locust
If not now when?
17 year locust
If not now when?
17 year locust
If not now when?
Tombstone eyes roam
Up and down your skin
Assassinate the mind frame
Nothin' left to win
Well, I see the sun
Burnin' in your eye
I see the sun
Call a suicide, come on
17 year locust
If not now when?
17 year locust
If not now when?
17 year locust
If not now when?
17 year locust
If not now when?
Enchanted on the highway
All the freaks collide
One minute longer
You start to slide
Well, I ain't the one
Burnin' in your eye
Well, I ain't the one

Call a suicide, come on
17 year locust
If not now when?
17 year locust
If not now when?
17 year locust
If not now when?
17 year locust
If not now when?
