

Hell

A\$AP Rocky

Uh, uh

We use to wear rugged boots now it's all tailored suits
Audemars Piguet for my criminal recruits
Champagne flutes, bumpin' rhythm and the blues
My partner made bad moves, he might end up in the news
Or end up in the tombs or living in the boondocks
Riding by the rules I'll abide by it soon
See the situation weï»¿ sophisticated goons
Know you live by the gun then you die by it too
Niggas call me prophecy, swagging and philosophies
White on white wagon, call that motherfucker Socrates
Rat ass niggas, fighting for a block of cheese
Catch me out in China stunting yea I'm about my guapanese
My shoe game serious, so serious, Wapanese
Niggas say I'm blessed my bad I forgot to sneeze (Achoo)
There your reasons go bitch
I got some tissues for your issues tell 'em blow this

People money watch, straight ahead now
They countin' every day down, hittin' on me long
You know your way, where youâ€™re headin' now?
Me, I want everything, it wonâ€™t take me long

People money watch, straight ahead now
They countin' every day down, hittin' on me long
You know your way, where youâ€™re headin now?
Me, I want everything, it wonâ€™t take me long

Roger, roger, tell 'em roger that
Itâ€™s the gold teeth, French braids, call me Project Pat
With the stocking cap, Jason mask on, probably strapped
Itâ€™s the Rocky cap, turn my swag on, holla back
Throw a dollar at a bidd-itch, tell er suck my di-dick
'Cause they hatin on my cli-ddick, 'cause we made it when we did it
Hate it 'cause they didnâ€™t

My mama always told me keep your mind on your money, boy you better pay attention
Ride with the pretty nigga, woopy, no chauffeur
Paint lookin' like a drippin' smoothy, no coaster
The game's full of posers, big dog bulldozer

Pop up on 'em like toasters, wake 'em up like Folgers
'Cause Heaven need a villain like Hell need a newer idol
You could bet the crib and car, just renew the title
For now Iâ€™m po-pimpin' like them do or die dudes
Smoking killa' but my doors still suicidal

People money watch, straight ahead now
They countin' every day down, hittin' on me long
You know your way, where youâ€™re headin' now?
Me, I want everything, it wonâ€™t take me long

People money watch, straight ahead now
They countin' every day down, hittin' on me long
You know your way, where youâ€™re headin' now?
Me, I want everything, it wonâ€™t take me long

It will hit you on the head
You donâ€™t even gotta hate me now babe
Just as sheeps get led
Oh you could see where I'm gone
Oh how you gonna feel now? You know what they said
Really you know that we donâ€™t calm down how we get down everyone, say "Rocky ahead"
And you donâ€™t really what is up
No, they canâ€™t get it wrong

People money watch, straight ahead now
They countin' every day down, hittin' on me long
You know your way, where youâ€™re headin' now?
Me, I want everything, it wonâ€™t take me long

People money watch, straight ahead now
They countin' every day down, hittin' on me long
You know your way, where youâ€™re headin' now?
Me, I want everything, it wonâ€™t take me long
