

Party In My Head

September

Party's in my head
Party's in my head
[chorus]I don't care if the whole club is dead
'cuz the party's in my head
The party's in my head
If you won't let me in
Dancing on the street instead
'cuz the party's in my head
The party's in my head
I don't care about the VIP
'cuz every single DJ is inside me
If you dunno where to go
Dstay close to me instead
'cuz the party's in my head
The party's in my head
[verse]Me against the world
The world against me
Those who can't feel or see what I see
The ones who stay close
Hear what I hear
I'll be your host the music is here
I'm on a train again
jammin' on my own again
They think I'm insane
There's no music playin'
Why wait on Friday lights
Since I'm out on every night
If no one's around I'm my own crowd
[chorus]I don't care if the whole club is dead
'cuz the party's in my head
The party's in my head
If you won't let me in
dancing on the street instead
'cuz the party's in my head
The party's in my head
I don't care about the VIP
'cuz every single DJ is inside me
If you dunno where to go
stay close to me instead

'cuz the party's in my head

The party's in my head

[verse]Imagine with me

Just like I said

millions of us

the sound in your head

feel it vibrate

from state to state

movin those plates

me in a grave

I'm on a train again

jammin' on my own again

They think I'm insane

There's no music playin'

Why wait on friday lights

since I'm out on every night

If no one's around I'm my own crowd

[chorus]I don't care if the whole club is dead

'cuz the party's in my head

The party's in my head

If you won't let me in

dancing on the street instead

'cuz the party's in my head

The party's in my head

I don't care about the VIP

'cuz every single DJ is inside me

If you dunno where to go

stay close to me instead

'cuz the party's in my head

The party's in my head

[bridge]I've got the whole world on my guest list

No one that precious

No one that precious, yeah

Close your eyes and turn up to this

Yeah, turn up to this

Yeah, turn up to this yeah

I'm in my world

And my own world we gettin'

With every boy

And every single girl, yeah

And every one

And every one's in me

(No matter where I'm gonna be)

[chorus]I don't care if the whole club is dead

'cuz the party's in my head
The party's in my head
If you won't let me in
dancing on the street instead
'cuz the party's in my head
The party's in my head
I don't care about the VIP
'cuz every single DJ is inside me
If you dunno where to go
stay close to me instead
'cuz the party's in my head
The party's in my head
[chorus]I don't care if the whole club is dead
The party's in my head
If you won't let me in
Dancing on the street instead
The party's in my head
I don't care about the VIP
'cuz every single DJ is inside me
If you dunno where to go
Stay close to me instead
'cuz the party's in my head
The party's in my head
Party's in my head
Party's in my head
