Blood Into Wine

Soul Asylum

Nothing happened, it's just two people passing through
Hearing voices in my head, hope they never lie to youWhy's something always gotta be up with you
Whatever I do is never enough for someone like you

Passing through you all the time

Turning blood into wine

Turning blood into wineWho'll forgive me, who's to say if it's right or wrong

And you won't see me in a light that shines on meAnd how come something's always gotta be up with you

Back on my feet but the night's getting long

Do you think about me too
Turning blood into wine
It's passing through you all the time
Turning blood into wineThree more days and you'll be hanging on the line
And if they ask you how I'm doing
Just tell 'em that I'm fineStaying out all the time
Is turning blood into wine
Turning blood into wine
Blood into wine
