

Would You Be My Father

Kalee Hric

I am a daughter
Whose father forgot her
He left me hurting and searching
For the love I've never had I am a daughter
Who still needs a father
One who'll love me and lead me
Through all the good and bad
So I'm asking You Lord Would You be my Father
Though I'm already grown
Would You be the Father
That I've never known
Would You be my Father
So I could find my way home I would be honored
If You were my Father
I'd no longer be lonely
In the comfort of Your arms
And as a daughter I want a Father
Who will stand right here beside me
Keeping me safe from harm
So I'm asking You Lord Would You be my Father
Though I'm already grown
Would You be the Father
That I've never known
Would You be my Father I'd be the daughter
I never had the chance to be
I'd be the daughter
He never took the time to see
Now there's a change in me Now that You're my Father
The one I've never known
Now I have a Father
That I can call my own Now that You're my Father
I'll no longer be alone
Now that You're my Father
Lead me home Now that You're my Father
You are my Father
Father
