

# That's the Way Love Is

[Del Shannon](#)

I wonder,  
I wonder,  
Where she is tonight,  
And who's the guy with her now,  
Holding her tight,I guess I'll never really know,  
That's the way love is,  
That's how love goes,She promised,  
She promised,  
That we'd never part,  
Then how come,  
How come I'm standing here,  
Standing here holding my heart,I guess I'll never really know,  
That's the way love is,  
That's how love goes,My friends all tell me,  
She'll be back,  
She'll be back,  
She'll be back,  
Wait and see, yeah,  
I'll be here waiting,  
Till eternity,I cried,  
Yes I cried,  
For she's not mine,  
And just think,  
Just think what she said to me,  
She told me she would always walk the line,It hurts,  
And I know it shows,  
That's the way love is,  
That's how love goes,  
Yeah, that's what love'll do to you,  
Yeah, it will break you up child,  
Yeah, your heart will break in two...
