Sure if your favorite is long (get it get it) baby baby

Don't you want to leave tonight and fuck wit me

'cause we really need to be freakin' off at any cost

Its on me, if you married, then get a divorce

When I hits it, some women get twisted

Have 'em twitchin', like "damn look what the dick did"

I just want to hit it the worst way, right after a long day

And put the puss on lay-a-way, heard me?

I'm that, dirty nigga that get you hot, and heat it

Baby girl if you wanted ass, why don't you eat it?[Chorus: x2]Let me holla at my true thugs

If niggas want war, bust slugs

Nigga, what? I'm hotta hotta and just can't be touched

Plus anybody that fucks wit me, gonna get felt

How many want it? determines how the slugs get dealt

'cause I split em split em

Choke then niggas like roaches and then (clip em clip em)

Long as I'm alive I'ma (hit em hit em)

Respect mines to the day of my demise

Don't fuck wit me 'cause the flows (killa killa)

Whoever ever who wants it?

Its yours, now your gonna (get it get it)

Threat em like hoes and show no love to them homo thugs

Its us you want to fuck with

As soon as them slugs skip from body to body

Go from brave to bitch

I don't respect it plus niggas committed treason

Who want it with Ja? who ready to die breathing[Chorus: x2]Ja baby, one of the many many niggas who sip

hennessy

Wit the two seaters, sit'n on twenties
I, I be wit runnin' in, runnin' out
Then, thou bestow hit em up, gun em down
Niggas ain't ready for Ja, anyways anyhow
I give it give it go niggas, claimin' that they live it
Real (niggas niggas) brandish then iron and flash
Like (hold this hold this) when you got nothin' to live for
Notice, niggas be hot, and more explosive
Focus, ready to rip em up wit the dope, this
My life, niggas is frontin' and stuntin' for nothin'
Better act right, fore I spark and dim your light?
I'ma hasard to niggas, a bastard
To bitches, when in doubt, go for stealth, and clap the finish
Anything movin rightfully hit for wrong doing
I'ma follow and encourage all my niggas to what?[Chorus]
