One In A Million

Hannah Montana

How did I get here? I turned around and there you were
I didn't think twice or rationalize
'Cause somehow I knewThat there was more than just chemistry
I mean I knew you were kind of into me
But I figured it's too good to be trueI said, Pinch me, where's the catch this time?"
Can't find a single cloud in the sky
Help me before I get used to this guyThey say that good things take time
But really great things happen
In the blink of an eyeThought the chances to meet somebody
Like you were a million to one
I cannot believe it, you're one in a millionAll this time I was looking for love
Tryna make things work that weren't good enough
Till I thought I'm through, said, I'm done
And stumbled into the arms of the oneYou're making me laugh about the silliest stuff
Say that I'm your diamond in the rough
When I'm mad at you, you come with your velvet touchCan't believe that I'm so lucky
I have never felt so happy
Every time I see that sparkle in your eyesThey say that good things take time
But really great things happen
In the blink of an eyeThought the chances to meet somebody
Like you were a million to one
I cannot believe it, you're one in a millionAll this time I was looking for love
Tryna make things work that weren't good enough
Till I thought I'm through, said, I'm done
And stumbled into the arms of the oneI said, Pinch me, where's the catch this time?"
Can't find a single cloud in the sky
Help me before I get used to this guyThey say that good things take time
But really great things happen
In the blink of an eyeThought the chances to meet somebody
Like you were a million to one
I cannot believe it, yeah yeahThey say that good things take time
But really great things happen
In the blink of an eyeThought the chances to meet somebody
Like you were a million to one
I cannot believe it, you're one in a million, yeahOne in a million, yeah
You're one in a million
