Let Me Know

B5

Can I get your number?
And is it cool to call you on the under?
(Let me kno)
I heard that you had a guy
But if you feel that he's not treating you right
(Let me kno)
If you wanna give me a chance
We could start our own little romance
(Let me kno)
Just let me kno
Every night when I'm thinking of you
Are you thinking of me the same way too?
(Let me kno)
And everything that he can do
Girl, I promise, I could do the same for you
(Let me kno)
I'll go the extra mile, make sure that it is worth your while
(Let me know)
Just let me kno
Baby, from the very first time I saw you
Couldn't believe my eyes
Could never had I seen a girl who was so fine
But I had to keep my cool
'Cause I couldn't lose it in front of you, no, no
What's up with that fella that I saw you with?
I can see it in your face, he could be replaced
'Cause you know that he's a busta
And he don't know how to love you
Can I get your number?
And is it cool to call you on the under
(Let me kno)
I heard that you had a guy
But if you feel that he's not treating you right
(Let me kno)
If you wanna give me a chance
We could start our own little romance
(Let me kno)
Just let me kno
Since, we didn't really know much about each other

Start up on the phone, I'm not that type of fella
That likes to be alone
Whatever you wanna do, I'm leavin' it up to you
Just let me kno, let me kno
(Let me kno)
If you like chillin'
(Let me kno)
If you like hangin'
(Let me kno)
If you like spendin'
(Let me kno)
'Cause girl, I'm willin'
(Let me kno)
Gonna get steep when you let him go
If you really want me, let me know
Can I get your number?
And is it cool to call you on the under?
(Let me kno)
I heard that you had a guy
But if you feel that he's not treating you right
(Let me kno)
If you wanna give me a chance
We could start our own little romance
(Let me kno)
Just let me kno
Every night when I'm thinking of you
Are you thinking of me the same way too?
(Let me kno)
And everything that he can do
Girl, I promise, I could do the same for you
(Let me kno)
I'll go the extra mile, make sure that it is worth your while
(Let me kno)
Just let me kno
Can I get your number?
And is it cool to call you on the under
(Let me kno)
I heard that you had a guy
But if you feel that he's not treating you right
(Let me kno)
If you wanna give me a chance
We could start our own little romance
(Let me kno)
Just let me kno
