I Hate Sorry

Jason Chen

I can see a tear fall slowly
Don t even walk away so I ll believe
When you say you re sorry
I catch you with a lie, you say you ve changed
And you apologize, you think everything s ok, ok
But why can t I believe you even though I want to?
Don t know what you ve done to me
Guess I can t forgive you and I really want to
But it s all you ever say to me
I hate sorry, I know that it s not true
It don t mean a thing from you
It makes you think that everything s fixed
With just one word
Makes you feel better
Makes me feel worse
So I hate sorry
I hate sorry
Maybe it s me, I wish I d knew
How I get so weak when I m looking at you
Oh, what should I do?

Don t know what you ve done to me
Guess I can t forgive you and I really want to
But it s all you ever say to me
I hate sorry, I know that it s not true
It don t mean a thing from you
It makes you think that everything s fixed
With just one word
Makes you feel better
Makes me feel worse
So I hate sorry
I hate sorry
Baby, all those little white lies you told
Build up and now it s getting old
Don t say the word cause I don t need
Another sorry
All the drama that you put me through
Is weighing down on me and you
Don t say the word that I don t need

Cause I hate sorry, I hate sorry
I hate sorry, I hate sorry
I hate sorry, I hate sorry
