

Lay Me Down (Target Exclusive)

[Adele](#)

[Adele]

I would never lie to you unless you tell me to...

Every part of me

All my words to hold

And hold against me

Why won't you let it be? Don't you ever say my love opened up your heart

No I'm not gonna do it standing up

The words don't come out right when you're right in front of me

Help me baby

Won't you turn off the lights Lay me down

'til the morning!

Lay me down (through the night)

Lay me down (I can fall in)

Lay me down (Won't you)

Lay me down (I can baby)

Lay me down (Someone believe me) I would never break the rules unless you tell me to

You can read my mind, be it truth or lies

Lie down beside me, why won't you let it be? Don't you ever say my love opened up your heart

No I'm not gonna do it standing up

The words don't come out right when you're right in front of me

Help me baby, won't you turn off the lights Lay me down ('til the morning)

Lay me down (through the night)

Lay me down (I can fall in)

Lay me down (Won't you)

Lay me down (I can baby)

Lay me down (Someone believe me) Lay down with me

Lay down with me

Lay down with me

Lay down with me Words don't come out right when you're right in front of me

Help me baby, won't you turn off the lights Lay me down ('til the morning)

Lay me down (through the night)

Lay me down (I can fall in)

Lay me down (Won't you)

Lay me down (I can baby)

Lay me down

Someone believe me
