First Time

V

Tell me if it's cool, baby
Me and you should just get going
Never mind
If we've got work today
Lay your head down, girl
Meet me in my own world
Lay back and let go
We'll be back before anybody knows
Don't go denying
Take a sip and try it, yeah
'Cos you know
I like your flavors too, girl
I look good on ya, baby
And you look good on me, baby
So let's just look good together
Together
I feel your vibe, feel the love, feels so right
Baby, for the first time
I feel alive, feel your love, feels so good
Yeah
It ain't too hard
To imagine me and you
You crack a smile
'Cos I know you hear me when I say
I look good on ya, baby
And you look good on me, baby
So let's just look good together
Together, oh baby
I feel your vibe, feel the love, feels so right
Oh, baby for the first time
I feel alive, feel your love, feels so good
And you know it's for the first time
I feel your vibe, feel the love, feels so right
Baby, for the first time

I feel alive, feel your love, feels so good
Tell me can you feel it?
Baby, can you feel the vibe?
Can you feel the love?

Feels so good when you show me love
For the first time
When we're making love
Say it with me if you feel me
Tell me can you feel the vibe?
Can you feel the love?
For the first time when we're making love
Feels so good when you show me love
Come on
I feel your vibe, feel the love, feels so right
Baby, for the first time
I feel alive, feel your love, feels so good
I feel your vibe, feel the love, feels so right
Tell me is it for the first time
I feel alive, feel your love, feels so good
And you know it's for the first time
I look good on ya, baby
And you look good on me, baby
So let's just look good together
Together, oh baby
I'm feeling your vibe girl
I'm feeling it nice now
And you know
It's for the first time
I look good on ya, baby
And you look good on me, baby
So let's just look good together
Together, together
