Ether

Nothingface

I'll never hesitate
Because I'm too good for that
I'll never show restraint
Because there's no need for thatI know everyone
I've been everywhere
I know everything
Because I'm everybodyWe came to take control
We came to sell you freedom
We came to burn you down
We came to brainwash childrenAnd it's not our fault
It's just your all new suicideWhere we belong
There's no one to hurt
It's some place where we can't be found
Where we belong
It's darker than space
A feeling that we all push down
So it can't be foundIt's that time again
Can we get it right
He wants us to revolt
To set the world on fireWe won't show restraint
Because we like the violence
We are security
Wrapped in our brutalityAnd it's not our fault
It's just you're all new suicideWhere we belong
There's no one to hurt
It's some place where we can't be found
Where we belong
It's darker than space
A feeling that we all push down
So it can't be foundFind our way through space
We'll never be found by anyone out here
Away from everything that knows
What we didI know everyone
I've been everywhere
I know everything
Because I'm everybodyWhere we belong
There's no one to hurt
It's some place where we can't be found
Where we belong

It's darker than space
A feeling that we all push down
So it can't be found
