

# Run

Ben Lee

I feel you in the sidetrack  
I'm reaching out for contact  
To keep you on my mind  
And are you close to breaking  
I'm sorry if you're aching  
But I don't want to hide  
I feel you somewhere downtown  
I hear you in the low sounds  
I bleed until I'm cut  
And I'm still thinking of you  
I promise I could love you  
If you could keep it up  
Run if you want me  
You're moving too slow  
Run if you want me, oh whoa  
Run if you want me  
You're moving too slow  
Run if you want me, oh whoa  
The secret that I'm keeping  
The moment that I'm reaching  
The image on my mind  
I feel you in the outback  
I'm holding out for contact  
You're so far behind

Run if you want me  
You're moving too slow  
Run if you want me, oh whoa  
Run if you want me  
You're moving too slow  
Run if you want me, oh whoa  
Wake up jump start  
Your name across my heart  
Sign one track mind  
Until the finish line  
Slow burn new time  
Still life a lesson learned  
Fun damage done  
If you want me you gotta

Run if you want me  
You're moving too slow  
Run if you want me, oh whoa  
Run if you want me  
You're moving too slow  
Run if you want me, oh whoa  
Run if you want me  
You're moving too slow  
Run if you want me, oh whoa  
Run if you want me  
You're moving too slow  
Run if you want me, oh whoa
