Suzie Q Sailaway

sElf

I'm holding a grudge on her mind
While kids with lazer pointers try to fry mine
The sky is falling as we patch it with twine
I said the sky is falling run for your livesSomewhere, Someway, Somehow
I need airplanes just to bring her down
She's so high, so far off the ground
Suzie Q Sailaway, just not right nowShe climbed the trees behind the house
Had to call the Fire Dept. to get her down
Feet to the branches from the branch to the wind
She shot skyward before they could beginSomewhere, Someway, Somehow
I need airplanes just to bring her down
She's so high, so far off the ground
Suzie Q Sailaway, just not right nowShe's so high - repeat 4xI can't be Superman today
She's taken my Up, Up, and Away
The sky is falling and I've just begun
To salvage pieces cause they'll be worth a tonSomewhere, Someway, Somehow
I need airplanes just to bring her down
She's so high, so far off the ground
Suzie Q Sailaway, just not right now
