

The Pickin' Shed

Ashton Shepherd

Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed I remember
the first time I walked through the door
I felt at home though I'd never been in there before
the band was playing and I sang a few songs
I gotta admit I was hooked from then on Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed it's the place
we built for the music that we play
or you can shoot pool or you can throw darts any day
it's like our own private bar that's open every night
there ain't no closin' time
and no rules to go by Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed And there's
never any pressure
You can just relax
And if you ever hang out here
I bet you're gonna come back Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed right here in
our backyard
at the pickin' shed
