

Welcome To the World

Cheap Trick

Welcome to this world, its a brand new day
Welcome to my world, its a better place
Welcome to the world, hoping you can stay
You can change the place color anyway The doors are opened to ya
Thats all that we can do, yeah
Before and then I knew ya
Rules are changing ooh, yeah Wish I was the first, was the first to say
Welcome to this world, get some love today
Welcome to my world, its a better place
Welcome to the world, its your birthday The door's opened to ya
All we mustn't do, yeah
Before then I knew ya
Play the games that suit ya Welcome to this world, its a brand new day
Welcome to my world, its a better place
Welcome to the world, hoping you could stay
You could change the place color anyway The doors are opened to ya
Thats all that we can do, yeah
Before and then I knew ya
Rules are changing ooh, yeah Welcome to the world
Welcome to the world
Welcome to the world
