

What We Have to Have

Futurisk

Responsibility is what we have to have,
And this monstrosity is getting out of hand.

I didn't realize what she meant until I waited for her to arrive.
I didn't realize what she meant until I waited for her to arrive.

You know duration is what we have to have
Acceleration, we speed across the land.

I didn't realize how it felt until I tried to keep myself alive.
I didn't realize how it felt until I tried to keep myself alive.

Keep myself alive. Try to keep myself alive.
Keep myself alive. Try to keep myself alive.

You know duration is what we have to have
Some admiration would really feel quite grand.

I didn't realize how it felt until I tried to slow myself down.
I didn't realize how it felt until we tried to put each other down.

Keep myself alive. Try to keep myself alive.
Keep myself alive. Try to keep myself alive.

Come 'n' get it
Keep my head above water
Come 'n' get it
Keep my head above water

(c)1979 Jeremy Kolosine
